MONEY, BONDS AND STOCKS,

A Dull Market in New York, the Majority of the Lists Showing Slight Advances. NEW YORK, Oct. 31 .- Money on call was easy at 2024 per cent, the last loan being

made at 2, closing offered at 2 per cent. Prime mercantile paper, 42 07 per cent. Sterling exchange was quiet and steady at \$4.84 for 60-day bills and \$4.87\$ for demand. The total sales of stocks to-day were 185,103 shares, including the following: Missouri Pacific, 10,230; Northwestern, 6,550; Reading, 39,-900; Richmond & West Point, 10,110; St. Paul, 8.400: Union Pacific, 15,780; Western Union,

The stock market to-day was dull, with a steadily decreasing volume of business, but, while steady to strong in the forenoon, became generally heavy later in the day, though most of the list is slightly higher this evening. There was no pressure against the list this morning, and London was a buyer of the specialties dealt in between the two markets, which gave the market a firm to strong tone at first, which induced considerable covering of "shorts," and in the limited dealings aided in the advance then in progress. These purchases were soon satisfied, however, and with intense duliness came more confidence to the "bears," and further "short" lines were put out, with the effect of wiping out the great majority of the early advances, though a firmer tone afterward prevailed and some of the gains were saved. The general list made but small fluctuations during the day, and the widest movements were in the Southern stocks, which were helped by the stolantic coast line, and the good showing of some extent, and there was some em in the matter of earnings, and some of the specialties, such as Puliman, which made one of its upward jumps to-day. New England was active, but as there was liquidating by Bustop, the movements of the stock were made within narrow limits and its final change insignificant. Missouri Pacific was again strong, and many rumors of an agreement between that company and the Atchison were circulated with considerable effect. There was some animation in Union Pacific, but there seemed to be no interest in its transactions, and it was traded in over a rauge of only half of 1 per cent. for the day. Cotton Oil was active and strong once more, and reached its highest price for some weeks, though a portion of the improvement was lost. The opening prices, as compared with last night's figures, showed advances extending to per cent., and while the market was quiet, further advances were scored all over the list, although the movement was feverish and uncertain. Intense duilness became the principal feature of the market during the afternoon, though Missouri Pacific, Pullman and Cotton Oil were strong points.
The best prices were reached toward I P. M.,
after which the list showed a sagging tendency and New England considerable weakness. The volume of business steadily decreased, and the market finally closed dull and steady at close to the opening figures. The great majority of the notive last is higher this evening, though for fractional amounts only, except Pullman, which rose 21: East Tennessee first preferred, 11, and

Richmond & West Point preferred, 12. The railroad bond market was quiet, with a well-distributed business to-day, and generally firm to strong tone, most of the issues traded in being fractionally higher this evening. The sales were \$1,157,000. The advances include Toledo & Ohio Central firsts, 2, to 102; Green Bay incomes, 11, to 301. There were several losses, and St. Louis, Arkansas & Texas firsts declined 21, at 924; Burlington & Cedar Rapids firsts, 24, at 91, and Fort Wayne seconds 6, at

CHICAGO, Oct. 31.—The market for wheat was pretty much a repetition of previous days, though the sharp advance toward the close of Change yesterday made operators a little more cautious, and they did not propose to let the market get away from them to-day. In trying to follow the movements of a leading trader, operators got short early in the day, and when they wanted to cover they discovered that there was no wheat for sale, and consequently prices, under covering of "shorts," advanced rather easily. May delivery, which is the leading fut-ure, opened weak and | Dic lower than closing figures of yesterday, ruled weak and declined more, then ruled within a narrow range

for awhile, selling up later 1c, de-clined 11c, and then advanced 21c, fluctuated some, and closed about to higher than yesterday. The feeling in the corn market was a trifle unsettled, though generally easier, with the volume of trading rather light and fluctuations only moderate. Spring trades were to below the closing quotations of yesterday, when offerings were quite free and prices receded ic, recovered, ruled easy closed & & le lower than yesterday. The interest was largely in November, and the fluctuations of this month were due largely to the operations of a large local holder, who was selling early in the day and buying later in the session. Quite an active speculative trade in oats was witnessed. It was centered in May delivery, and a number of round lots changed hands. There was a good demand, and buyers were usually accommodated, still a steady feeling prevailed, and there was no material change from yesterday's quotations. Near futures attracted less attention, but ruled rather dull, with the market heavy and a shrinkage of te in values. October delivery closed quiet, about all trades being settled. An increased business was reported in the market for mess pork, and a stronger feeling was les affoat in regard to the acquisition of the At- | developed. "Shorts" purchased to some for investment account. Prices were advanced 15 @ 25c on the whole range, and the appreciation was well maintained. The trading was chiefly in January and May deliveries. Trading was only moderately active in the lard market, but the feeling was firmer and prices ruled .05 2.07 to higher. Offerings were not very large, and trading was chiefly for November and January delivery. There was more inquiry for short-rib sides and the offers were fair. Trading was confined almost exclusively to contracts for January. Prices were advanced .021 @.05c, and the market closed steady. The

INDIANAPOLIS MARKETS.

Politics Holds the Age on Trade Just Now. and Business Is Therefore Dull.

INDIANAPOLIS, Oct. 31.

It was a very quiet day on South Meridian street. Naturally on the last day of the month purchases are small, but coupled with this is the fact that politics is attracting so much attention that business is a secondary matter. The conditions for trade in the near future are certainly favorable. There are but few changes to be noted. Roasted coffees are off ic, and are weak at that figure. Sugars in the East are to lower, and in this market they rule easier, but should the present weakness continue, a drop may be looked for in a day or two. Receipts of poultry are liberal and the demand good at unchanged prices. Eggs are firm at unchanged prices, while butter is higher, if it is a choice article. The provision market drags a little at easier prices. The flour market rules quiet, prices ranging as for several days past. The hide market is active, and prices are a shade firmer but not quotably higher. Seeds are less active, and prices as a rule are easier. In the lines of fruits and vegetables the supply is large and all along the line weak, buyers on many ar ticles naming their own prices. The market otherwise is featureless.

There was a fair attendance on 'Change today, but the bidding was not as spirited as on Tuesday. The following will show the actual transactions, with the various fluctuations in

The well-known Carlsbad Sprudel Salt produced from the Natural Springs of Carlsbad, better than any of the so-called blood purifying reme-

The cashier of M. Guggenheim's Sons, 96 and 98 Franklin Street, one of the largest import houses in the United States, writes under date of June 30, 1888, as follows: For years I have suffered from abscesses which always formed on the back of my neck, and had to be cut from time to time to obtain relief. I used all sorts of blood purifiers, but without avail. The abscesses would always reappear. I suffered very much pain until my physician advised me to use the genuine imported Carlsbad Sprudel Salt (powder form). I used this for about four weeks, and since that time I have been entirely free from the disease. My complexion cleared, and I have enjoyed good health ever since. I cannot speak too highly of this really valuable remedy, and have recommended it to all my friends, who also speak of its wonderful effects as a laxative. Yours very respectfully,

I. MEYERS.

Dr. A. L. A. Toboldt, in a paper read before the Ninth International Medical Congress, speaks of the genuine imported Carlsbad Sprudel Salt (powder form), as follows: My experience with the Carlsbad Sprudel Salt Powder in constipation, diseases of the stomach, liver and kidneys, diabetes, gout, rheumatism, etc., has been such that I may truly say, that no remedy which I have ever used has given me so much pleasure and

profit as this particular one. Dr. Lustig, in his book on the action of Carlsbad 1,800.00 I may here state that in chronic abdominal ailments, constipation, gastrie catarrh, dyspepsia, dis-eases of the stomach, liver and kidneys, diabetes, gout and rheumatism, we know of no more efficacious, rational or simpler remedy than the Carlsbad Mineral Water and the Carlsbad Sprudel Salt. A person can at any time of the year, without the least interruption to business, and with very little cost, not only remove any of the above ailments but also prevent their further development by the use of this remedy.

The genuine Carlsbad Sprudel Salt Powder is put
up in round bottles. Each bottle comes in a paper
cartoon and has the seal of the city of Carlsbad, and
the signature of Eisner & Mendelson Co., Sole Agents, around the neck of every bottle. All others are worthless imitations. Pamphlets and Dr. Toboldt's lecture mailed free upon application, Eisner & Mendelson Co., 6 Barclay Street, New York, Sole 575.00 Agents.
